1. Have you seen a drag-on - fly? Do you know what she can do? She

can fly for - ward, and fly back. She can fly up, and then fly down.

And some-times all she wants to do is stop...and look a round.

2. We can be like dragonflies. We can do what they can do.

We can go forward, and go back. We can go up, and then go down.

And sometimes all we need to do is stop...and look around.
